

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NEW YORK:
PRINTED FOR THE SOCIETY.
—
1870.

P R E F A C E.

To the Members and Foreign Correspondents :

During the war of the Rebellion the publication of the Journal has been necessarily suspended, the income of the Society being only sufficient to meet the expenses incurred for the apartments where its collections were placed, and its meetings held, for clerk hire, etc. Throughout this period the meetings were, however, regularly held, and considerable additions were made to the Library and to the valuable collection of maps and charts ; but in other respects the Society made comparatively little advance. Having no endowment or permanent fund, but depending solely upon the small income derived from the very moderate annual dues of members, it was not possible to do more ; and this state of things would have continued, but for the liberality of the Trustees of the Cooper Union, who have furnished the Society, *free of charge*, with the spacious apartments which they now occupy, consisting of a lecture-room, a room for the Library, a map and chart-room, and an office, in the large building of the Institute devoted by its public-spirited founder, Peter Cooper, Esq., to Science and Art. In these apartments, which form a suite of rooms, and are admirably adapted, from their size and contiguity, as well as from the locality of the edifice, to the purposes of the Society, the Library, now consisting of more than ten thousand volumes, is

placed, and so classified that the books relating to any one subject are as nearly as is practicable brought together. The large and very rare collection of maps and charts is arranged in cases with sliding shelves, so that any map or chart that is desired can be instantly referred to, and those mounted upon rollers are systematically arranged upon a series of racks, and labelled so as to be readily accessible. The Library is believed to be the largest and the most valuable in the country in the particular branch of knowledge to which it is devoted; although still inadequate to meet the demands of science, and far from what should exist in the principal maritime and commercial city of this continent, where this branch of knowledge is of constantly increasing importance. In it will be found a large collection of voyages, travels, and other works relating to nearly every part of the habitable globe. An extensive collection of geographical works and gazetteers, from the earliest cosmographies and geographies to those of the present day. A connected series of Atlases from that of Ortelius in 1573 to the beginning of the present century, embracing the large folios and best editions of Ortelius, De Marre, Mercator, Blaeuw, Doncker, Sanson, Van Homan, Jansen, De Witt, Mortier, Vooght, Van Keulen, Renard, D'Anville, etc., and many others. The transactions of many learned societies in different parts of the world; many works relating to the early history of navigation and of maritime discovery in this country and elsewhere, not to be found in any other public library in the country; and works upon statistics, meteorology, geology, navigation, commerce, physical geography, and kindred subjects, a complete catalogue of which is now in the course of preparation.

Relieved from the payment of rent and other expenses,

the funds of the Society during the past two years have been devoted to the fitting up of its different rooms, and in making necessary additions to the Library, especially of important recent works, in which it was deficient. A portion of its income will hereafter be devoted to the annual publication of its Journal.

During the last summer a valuable collection of geographical works brought to this country by Mr. Henry Stevens, was purchased by a private subscription, and added to the Library, and during the past two years there has been a large increase of resident members, the whole number now amounting to 478.

The Society is free of debt, its expenditures having been kept strictly within its income, and at no period in its past history has its condition and prospects given so flattering an assurance, not only of its permanence, but likewise of its increasing usefulness and prosperity. It remains now only to express the hope, that hereafter some public-spirited citizen, appreciating its importance, will, as has been the case with several institutions of a like character, endow it with a sum of money the annual interest of which will enable the Society to carry out more fully the purposes for which it was founded.

NEW YORK, *March*, 1870.

CHAPTER XII.

SECRETARIES.

1. Foreign Corresponding Secretary. It shall be the duty of the Foreign Corresponding Secretary to conduct the general correspondence of the Society with individuals and associate bodies in foreign countries.

2. Domestic Corresponding Secretary. It shall be the duty of the Domestic Corresponding Secretary to conduct the Society's general correspondence with individuals and associate bodies in the United States.

3. Both the Foreign and Domestic Secretaries shall keep, in suitable books to be provided for that purpose, at the Society's Rooms, true copies of all letters written by them respectively on behalf of the Society; and shall preserve, on proper files, at the said Rooms, all letters received by them on the same account; and at each stated meeting of the Society or the Council, they shall respectively report their correspondence, and read the same, or such parts thereof as may be required.

4. In case of a vacancy in the office of either of the Corresponding Secretaries, or in the absence or disability of either of these officers, the duties of both may be performed by the other Corresponding Secretary.

5. The Society may designate a particular officer, or appoint a committee to prepare a letter or letters on any special occasion.

6. Recording Secretary. It shall be the duty of the Recording Secretary to give due notice of the time and place of all meetings of the Society, and to attend the same. He shall keep fair and accurate minutes of the proceedings of the Society, and record the same, when approved, in the Society's Journal. He shall give immediate notice to the several officers and commit-

tees of the Society, of all votes, orders, resolves, and proceedings of the Society, affecting them, or appertaining to their respective duties. He shall prepare a list of the members of the Society entitled to vote, to be handed to the Tellers before the opening of the polls at each annual election. He shall officially sign and affix the corporate seal of the Society to all diplomas, and other instruments or documents authorized by the Society or Council. He shall have charge of the corporate seal, charter, by-laws, records, and general archives of the Society, except so far as they may be expressly placed under the charge of others. He shall certify all acts and proceedings of the Society, and shall notify the Council of the death, resignation, or removal of any officer or member of the Society. He shall have charge of the Rooms of the Society, and shall perform all such other and further duties as may, from time to time, be devolved upon him by the Society or the Council. He shall receive, for his services, such salary or pecuniary compensation as shall be determined by the Society or the Council; but neither in the Society nor the Council shall he have a vote on any question relating to, or affecting, his salary or pecuniary compensation.

7. All documents relating to the Society, and under the charge of the Secretaries respectively, shall be placed in such depositories in the Rooms of the Society as the Council may provide and designate for that purpose.

CHAPTER XIII.

LIBRARIAN.

The Librarian, together with the Council, shall have the charge and arrangement of the books, maps, and collections belonging to the Society. He shall cause to be kept in the Rooms of the Society, a Registry of all donations to the Library or collections of the Society, acknowledge their receipt by letter to the donors, and report the same, in writing, to the Society at its next stated meeting.

CHAPTER XIV.

TREASURER.

The Treasurer shall have charge of, and safely keep, all contracts, certificates of stock, securities, and muniments of title belonging to the Society. He shall collect the dues and keep the funds of the Society, and disburse the same under the direction of the Council; and so often as the said funds in the hands of the Treasurer shall amount to one hundred dollars, he shall deposit the same, in the name of the Society, in some incorporated bank in the city of New York, to be designated for that purpose by the Council; and the said funds, thus deposited, shall be drawn out of the said bank on the check of the Treasurer, countersigned by the Chairman of the Council, and only for the legitimate and authorized purposes of the Society. The Treasurer shall, previous to the annual meeting of the Society, prepare and submit to the Council, for audit, a detailed account of his receipts and disbursements for account of the Society during the past year; and which annual account, duly audited, he shall present, with his general report, to the Society, at its annual meeting.

CHAPTER XV.

COUNCIL.

1. The Council shall have the management and control of the affairs, property, and funds of the Society; and shall designate an incorporated bank in the city of New York, where the said funds shall, from time to time as they accrue, be deposited by the Treasurer.

2. It may frame its own By-Laws not inconsistent with the Charter or By-Laws of the Society.

3. It may, from time to time, determine the salary or pecuniary compensation of the Recording Secretary; and shall also appoint the necessary agents, clerks, and servants of the Society, with such powers, duties, privileges, and compensation, as it may,

from time to time, determine ; and may, at pleasure, revoke such appointments, and make others in their stead.

4. It shall have power to fill, for the unexpired term, any vacancy that may occur in any of the offices of the Society.

5. It shall have power, at its discretion, to declare vacant the seat of any member of its own body (except the President and Vice-Presidents) who shall have been absent from its meetings for three successive months ; and also, by a vote of a majority of the whole Council, to remove, from its own body, any member thereof for cause ; but in such case it shall be the duty of the Council to report every such vacancy or removal to the Society, at its next stated meeting thereafter, when such cases shall be subject to review by the Society.

6. It shall not, without an approving vote of the Society, at a stated meeting thereof, make any contract whereby a liability in amount above one thousand dollars may be incurred by the Society ; nor, without such vote, make any sale or disposition of the property of the Society, exceeding that sum in value.

7. The Council may, in its discretion, remit the initiation fee, or annual dues, of any member of the Society.

8. No member of the Council, except the Recording Secretary, shall receive any salary or pecuniary compensation for his services.

9. The Council shall hold stated meetings for the transaction of business, at least once in every month, except the months of July, August, and September.

10. At all meetings of the Council, five members present shall constitute a quorum for the transaction of business.

CHAPTER XVI.

GENERAL PROVISION AS TO DEBT.

CHAPTER XVII.

ALTERATION OF THE BY-LAWS.

No alteration in the By-Laws of the Society shall be made unless openly proposed at a stated meeting of the Society, entered on the minutes, with the name of the member proposing the same, and adopted by the Society at a subsequent stated meeting, by a vote of two-thirds of the members present.
